KEYING OPTIONS

KD = KEYED DIFFERENT

Each lock has separate keys with two (2) keys per lock. Extra keys available for additional charge.

KA2 = KEYED IN PAIRS

Two (2) locks keyed alike, same key opens both locks. For units with front and back doors.

SETS

Two (2) or more locks with different functions keyed alike, same key opens all locks in the set. For units with dead bolt on front door and entry lock on storage room.

MK = MASTER KEYED

Each lock has separate key with two (2) keys per lock and a master key that opens all the locks. Provides access to units for personnel.

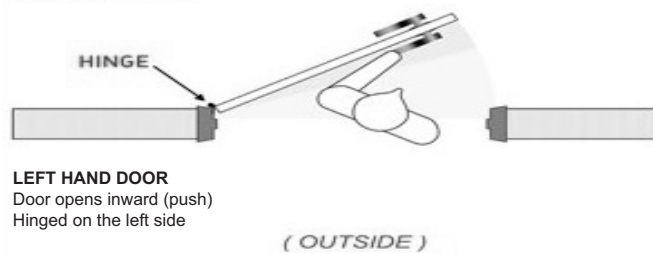

PK = PROTECTO KEYED

Protecto (construction) key is used until unit is ready to occupy. When tenant key is inserted in lock the protecto key is disabled. Useful during constructions, rehab, or make ready period.

ELECTRONIC DEADBOLTS

Kwikset UNITE Deadbolt

Integrated electronic locks, supported by cloud-based web and mobile software, utilize smart credentials to provide a complete and straightforward management solution for your multifamily properties.

Schlage ENGAGE BE467

Perfect for multi-family units, this lock uses smart credentials and phone management for easy access control. Enjoy simple install and extended battery life.

Yale YRD226-619

Lock and unlock your door from anywhere by adding the lock to a compatible Z-Wave smart home or alarm system and app (i.e. Samsung SmartThings, Ring Alarm, Wink, etc.).

Dormakaba SAFFIRE LX-D deadbolt

The Saffire LX-D deadbolt uses high-performance RFID for superior multi-housing access. Powered by Community access management software.

Dormakaba Saflok RD01-26D

while supplies last, product getting discontinued

An effortless electronic locking solution for multifamily properties. Built on RFID technology, it delivers superior security, simplified access, and quick, efficient installation.

WE ALSO DO ACCESS CONTROL

ACCESS CONTROL

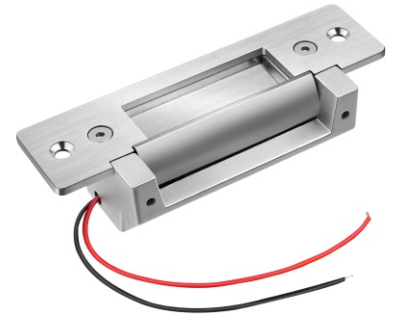

RFID Card Reader

Supports access via a digital touch keypad (PIN code) and contactless RFID cards.

Magnetic Door lock

Commonly paired with access control systems for secure door locking in offices, commercial buildings, and restricted areas.

Electric Door Strike Lock

An electronic locking mechanism designed to replace a standard door frame strike plate.

Door Cable Protector

Protects the power wires running from the wall to the door (such as wiring for electric locks or keypads) from damage, pinching, or tampering.

Fob Camera

spy camera, nanny cam, or portable security camera that connects wirelessly via Wi-Fi for remote monitoring.

SECURITY

It's why we buy locks in the first place. For the very best in residential security make sure your lock has these important features:

ANSI GRADE 1 DEADBOLT*

Locks are rated by an independent agency (ANSI). GRADE 3 security provides good residential protection—GRADE 1, the best. SmartKey™ withstands the highest level of UL pick testing, the UL 437, Par. 11.6.

BumpGuard™

Protects against lock bumping**. Not only is a SmartKey deadbolt the most convenient residential deadbolt you can buy, it provides the security you need.

* 980 Deadbolt

NEW TECHNOLOGY

Locking bar, racks and pins are made out of stainless steel for increased strength & durability.

BUMPGUARD

Patented side locking bar technology replaces a traditional pin & tumbler design to protect against lock bumping*.

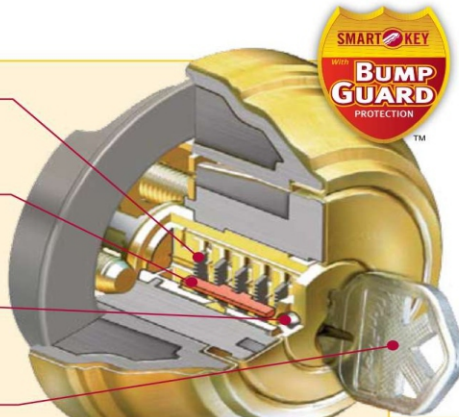

DRILL RESISTANCE

Cylinder uses two steel balls inserted into the front of the key face to resist attack from drilling.

KEY IT YOURSELF

Lock is rekeyable by using the included learn tool in less than 30 seconds without removing the lock from the door.

** Lock bumping - an attack technique using specially cut keys that can defeat conventional pin & tumbler locks.

KWIKSET

SMARTKEY SYSTEM

1

Insert functioning key and turn 1/4 turn clockwise.

2

Insert and remove the SmartKey learn tool. Take out current key.

3

Insert new key and turn 1/2 turn counter-clockwise. Your lock is now re-keyed!

You **must** have your working key & your learn tool for the system to work.

SmartKey Tool

Working Key

from Kwikset.com

SCHLAGE
PRIMUS

The SCHLAGE PRIMUS High Security Cylinder System is the answer for properties or areas where security is of the utmost importance

The PRIMUS key with its unique "Side-Bit Milling" is rigidly controlled. Only the SCHLAGE factory cuts the side-bit milling on the special key blanks, which are issued to specific PRIMUS center locksmiths. C.K.I. is proud to be one of these locksmiths. Your cut keys will be available exclusively through C.K.I. This will successfully protect you against unauthorized duplication of keys.

DUAL-LOCKING CYLINDERS

In addition to a conventional pin tumbler mechanism, SCHLAGE PRIMUS cylinders use five "fingerpins" which interface with the side-bit milling to unlock a separate sidebar assembly. The combination of these two locking technologies, operated by a single PRIMUS key, is the basis of the "Dual-Locking" cylinder and virtually eliminates lock picking.

SIMPLEX #1000 & #EE1000 Pushbutton Combination Keyless Lockset

ITEM# SMPBC1011
Knob

2 3/4"
BACKSET

ITEM# SMPBCEE1011
Double sided

This series is ideal for limiting access in high traffic areas and eliminates the problem of issuing, controlling and collecting keys. The resettable combination assures maximum security. Automatically re locks. Model 1011 exterior access by combination, exit by interior knob. EE1011 ext/int access by combo.

SIMPLEX #1000 Pushbutton Combination With Key Override

ITEM# SMPBC1021B
Key Override

2 3/4"
BACKSET

****HANDING
REQUIRED FOR
LEVERS**

Key override allows a facility to maintain or initiate a keyed-alike security system with the same key system already in use. The key will override the lock's combination to gain entry. Exterior access by combination or key override. Exit by interior knob. Automatically re locks.

SIMPLEX #L1000 Pushbutton Combination Keyless Lockset with Levers

ITEM# SMPBC-L1011
Lever

2 3/4"
BACKSET

****HANDING
REQUIRED FOR
LEVERS**

These lever-operated locks provide accessibility for the disabled and comply with ADA standards. Ideal for high-frequency use in apartments, washrooms, etc. All locks are handed at the factory and can not be changed. Exterior access by combination. Exit by interior lever. Automatically re locks.

SIMPLEX #919NL Pushbutton Combination Dead bolt with Springlatch

#SMPBC919NL-20

WELDABLE BOX
For Simplex 919

#SMPBC-919BOX

Opens from inside with a thumb turn. For right hinged doors, invert lock upside down. Roman numerals are easily read in either position. Latch is field reversible. Installation is surface mounted on interior side of door. Exterior access by combination. Automatically re locks except when latch holdback is activated.

SIMPLEX #7000 SERIES Combination Pushbutton Dead bolt or Self-Locking

DEAD BOLT

#SMPBC-7108-3

#SMPBC-7108-26D

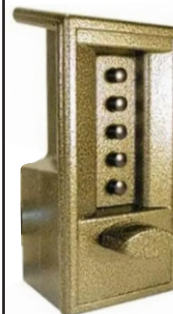

DEADLATCH

#SMPBC-7114-3

#SMPBC-7114-26D

The 7000 series provides convenient keyless auxiliary lock protection for commercial/residential applications. The 7108 must be manually relocked after exit and entry. The 7114 push button combination dead bolt with spring latch offers exterior access by combination. Exit by interior turn knob. Automatically re locks.

SIMPLEX #6218 Combination Pushbutton Residential Grade

#SMPBC6218- ALMND

#SMPBC6218- GREY

2 3/8"
BACKSET

The 6218 is streamlined for residential use. Easily replaces standard 2 1/8" bore cylindrical locksets. Automatically re locks each time door closes. Exit access by combination and by interior knob.

MODEL SPEEDEX #045 MANUAL KEY MACHINE

ITEM# ILKMP-045SILCA

The Speed 045 is designed to duplicate edge cut automotive, residential and commercial keys and includes features that any user will readily appreciate. The modern, open style, safety details and operational features make this model a choice model for store or shop and with the included mounting bracket; it is also an excellent choice for mobile use.

Cutter Wheel: BC0599

Bench: 15.75" W x 18.1" D x 9.8" H

Motor: 120V - 60HZ - 1350RPM

Meets OSHA and CSA requirements

MODEL SPEEDEX #044 SEMI-AUTOMATIC KEY MACHINE

ITEM# ILKMP-044SILCA

Fast and accurate. Once the key is loaded, release the carriage mechanism and with one easy flip of the operating lever, an accurate duplicate is made. Super Jaw 2 four way vise jaws provide superior key gripping. Same wide jaw spacing and dial calibration as the 045 machine. Consistent cutting pressure reduces miscuts.

Cutter Wheel: BC0599

Bench: 14 1/2" W x 16" D x 10" H

Motor: 110V - 1/4 HP - 1725 RPM

Meets OSHA and CSA requirements

HPC
KEY MACHINES

MODEL #9160MC MANUAL KEY MACHINE

ITEM# HPKMP-9160MC

The simplicity of this machine is perfect for duplicating even the largest of keys, such as hotel/motel room keys. The 9160MC is equipped with the finest set of double-sided jaw available, thus ensuring accurate cut keys on the first try, with little or no waste of key blanks.

Cutter Wheel: X23MC
Bronze Bearings
HPC's famous soft nylon brush
State-of-the-art reversible jaws
Motor: 1/6 HP- 1725 RPM

MODEL #9120RM SPEEDEX LIGHTWEIGHT KEY DUPLICATOR

The 9120RM Speedex is the most accurate small machine on the market. It has reversible jaws which allow it to cut a wide variety of keys, including double-sided keys. The durable construction and bronze bearings combine for a longer lasting life.

Cutter Wheel: 23RF
Motor: 1/15 HP 5000 RPM
Replacement belt available
